--[ Playing the games ]--

This machine might hold several wargames.  
If you are playing "somegame", then:

- \* USERNAMES are somegame0, somegame1, ...
- \* Most LEVELS are stored in /somegame/.
- \* PASSWORDS for each level are stored in /etc/somegame\_pass/.

Write-access to homedirectories is disabled. It is advised to create a working directory with a hard-to-guess name in /tmp/. You can use the command "mktemp -d" in order to generate a random and hard to guess directory in /tmp/. Read-access to both /tmp/ is disabled and to /proc restricted so that users cannot snoop on eachother. Files and directories with easily guessable or short names will be periodically deleted! The /tmp directory is regularly wiped.  
Please play nice:

```
bandit3@bandit:~$ ls
inhere
bandit3@bandit:~$ tree inhere
Command 'tree' not found, but can be installed with:
snap install tree # version 2.1.3+pkg-5852, or
apt install tree # version 2.1.1-2
See 'snap info tree' for additional versions.
bandit3@bandit:~$ cd inhere
bandit3@bandit:~/inhere$ ls
bandit3@bandit:~/inhere$ ls -la
